

## ☉ THE NEW FLAVIA® BARISTA, BY MARS DRINKS

The Mars Drinks FLAVIA barista is more than just a coffee maker. That's because it's the only single-serve office brewer that crafts perfect coffees, teas, lattes, cappuccinos and authentic espressos, all at the push of a button.

## ⬆ OUR PRODUCTIVITY SUPPORTS YOURS

There are many components to an authentic espresso: the bean, the roast, the grind, the temperature, the pressure, the size, the crema. These components tend to be an afterthought or even ignored altogether in many office coffee machines.

At Mars Drinks, we always use the highest quality coffee beans. We carefully roast and grind these beans and then seal them within our Freshpacks to maintain the freshness and quality of the coffee. Then unlike any other single-serve drinks machine, the FLAVIA barista produces 15 bars of pressure to recreate all the elements needed to produce an authentic espresso drink.

The FLAVIA barista also delivers great tasting real leaf and herbal teas, filter coffees, hot chocolate and specialties such as lattes, cappuccinos and mochas.

# INTRODUCING

The **FLAVIA barista** efficiently calibrates the **size, pressure and temperature**, so whether you're using the machine for the fifth or fiftieth time, you'll always get consistently delicious drinks.

# THE ENGINE OF TOMORROW'S WORKPLACE

AT MARS DRINKS, we create great tasting moments at work. And for a workplace to thrive, it requires a nucleus. A heart. An engine. That's why we didn't just set out to create a coffee machine;

WE SET OUT TO REDEFINE WHAT  
AN OFFICE SHOULD AND CAN BE.

A place where walls don't keep people apart. A place that celebrates collaboration and communication. A place where opinions, suggestions and ideas all flow freely. In other words, a place that creates moments.

With the introduction of the **FLAVIA barista** comes a new portfolio of espresso blends: 100% Arabica **ALTERRA® Espresso** and **decaf**, plus **SEGAFREDO® Intenso**, **Delicato** and **Cafesenza**, previously only available to professional baristas.

Each espresso contains different taste notes and intensities, providing a range of flavours. In addition, it makes Mars Drinks' vast range of coffees, teas, hot chocolates, lattes and other signature blends, including:

## TECHNICAL SPECIFICATIONS
